

City of Clearlake Guide to Commercial Cannabis Permits

Currently the City of Clearlake, CA is accepting applications to obtain a permit for cultivation, processing, extraction, manufacturing, testing, and distribution activities with an approved Use Permit and Regulatory Permit within areas of the City zoned Cannabis Business District. As required by the City's regulations, use permits for the operation of a commercial cannabis business also requires a development agreement. It is noted, however, that based on the City's Cannabis regulations, only so many commercial cannabis licenses can be approved. A list of applications is provided here that shows that the City has received over the maximum number of licenses they can issue. However, the City is in the process of reviewing these applications and may or may not approve them. Pending issuance of the maximum number of cannabis licenses allowed, the City will accept additional applications and place them on a waiting list.

Please download the complete Guidelines in the link below for further information.
